workshop spaces are on a first come first serve basis,
so best to be organised before you arrive, right?

Which themes appeal to you? Mark Your Faves Above

Lecture Theatre Questions Being Explored:

How can we develop, with children, a shared understanding of assessment?

How can teachers become informed, expert and confident in all aspects of assessment?

How can the system develop assessment practice that supports principled leadership?

*psst! got questions of your own? or a personal take on these?
pop your notes here >*

How can we promote cross phase debate and shared learning?

How can school leaders develop partnerships that support inclusion and ways of adapting teaching to ensure all children's learning is valued?

How can school leaders promote effective learning through formative assessment?

your space to add your question >

How can school leaders best support the effective use of feedback/feedforward strategies in their schools moving forward?

How can school leaders support the effective use of data to promote learning above tracking?

How can today's #LearningFirst ideas to support the future of assessment become reality?

guessed it? your space >
